CONSENT ORDER

On this 13th day of November, 2018, with respect to subpoenas issued in this matter for telephone records, and upon consent of the parties, it is hereby ORDERED that:

1. For all subpoenaed cell phone and other telephone records, the records will be produced directly to counsel who subpoenaed the records.
2. The subpoenaing party agrees not to contact any phone numbers identified in the records obtained, until first conferring with counsel of the account holder, as set forth below.
3. The subpoenaing party may then identify the telephone numbers, if any, of which it wishes to learn more information and shall provide a list of those telephone numbers to counsel for the account holder.
4. Counsel for the Account Holder will have three (3) business days to provide any additional identifying information for the requested cell phone numbers, e.g. identity of individual or business associated with each number. In the event the Account Holder for a phone number is a corporation or other entity, the identifying information to be provided is the name of the individual who regularly receives calls/voicemails at that number under the corporate account or

plan. Likewise, if an employee has family members covered under a corporate plan, the appropriate identifying information would be the name of the employee's family member, not the employee.

5. Should the Account Holder desire to protect/withhold the identity of the Account Holder for a particular telephone number, within the above three-day period, counsel for the Account Holder shall notify the Court of said dispute unless the Court appoints a Discovery Master. If a Discovery Master is appointed, all such disputes shall be submitted to the Discovery Master for resolution.

6. All phone records disclosed in this litigation will be labeled "Confidential," making such records subject to all terms of the Consent Confidentiality Order.

7. All phone records disclosed in this litigation will be for attorneys' eyes only and will not be shared with the parties, except that each party may review his or her own telephone records. The attorneys' eyes only designation encompasses only attorneys, paralegals, and administrative support. It does not include investigators, or any individual providing similar services, whether an employee of counsels' firm or a third party contractor retained by counsel.

IT IS SO ORDERED.
